

QuickIN tapping drive head

The world's only tapper drive head for drill/drivers. Tap at speed thanks to integrated reversing gear for automatic changes in the direction of rotation. The rapid return action in reverse running makes shorter cycle times possible. The tapper is braced on its square with a positive fit using collets, preventing it from slipping during use. Compatible with all FEIN cordless drill/drivers with QuickIN interface.

Product number: 6 42 03 027 01 0
