

VARIO M30 taper for through holes

Long service life, thanks to high material strength (64 HRC), special cutting geometries suited to impact wrench/drivers and a TiAlN (titanium-aluminium-nitride) coating. The bits experience low levels of wear and friction as well as being heat-resistant to 800 °C. Thanks to the high speeds and number of blows, they can therefore be used in steel up to 900 N/mm².|Perfectly suited to the following materials: non-alloyed and alloyed steels up to 900 N/mm², aluminium, brass.

Product number: 6 31 10 036 01 0

Technical data

TECHNICAL DATA

L

130 mm

Spiral length

48 mm

Material

HSS

Coating

Titanium Aluminum Nitride (TiAlN)

Strength

64 HRC

Heat resistance

max. 800°C

Tool Holder

VARIO Bit Shaft

Tapping

M 30

Max. Material thickness

45 mm

Weight

0.35 kg

Application examples
