

RSG EX 1500 A

Pipe milling cutter for pipes with diameters of between 250 mm and 1500 mm

Powerful electric pipe milling machine with explosion protection and a feed of 40 mm/min for pipes with diameters of up to 1500 mm.

Product number: 7 360 14 61 00 0

Details

- > Sawing oil, gas and water pipes made from steel and cast iron up to a wall thickness of 45 mm.
- > Milling oil, gas and water pipes made from steel and cast iron up to a wall thickness of 30 mm (with 2 revolutions).
- > Three-phase motor with protection from explosion and moisture with additional switch with explosion protection.
- > Can be used under extreme climatic conditions (+60°C to -30°C).
- > The guide chain, available as an option, ensures straight cuts without offset.
- > Simple setup / shortened side plates mean that less space is needed around the machine. What's more, because the weight has been optimised, only two people are needed to set up the machine.
- > Horizontal and vertical dividing without extra investments.
- > The feed movement can be activated and deactivated.
- > Autonomous machine working.

Price includes

- ✓ 1 transport container
- ✓ 1 metal tool case
- ✓ 20 bolts
- ✓ 1 set of keys
- ✓ 2 transport straps
- ✓ 4 handles
- ✓ 5 splitting wedges
- ✓ 40 circlips
- ✓ 1 switching device with motor protection switch
- ✓ 4 chain spacers
- ✓ 1 chain tensioner
- ✓ 5 splitting wedges, non-sparking
- ✓ 10 chain pieces (length 31.75 mm)
- ✓ 1 CEE clutch

Product feature

- ✓ Electric drive
- ✓ Cutting depth scale
- ✓ ATEX components
- ✓ Supply flow and return flow
- ✓ Feed shutdown
- ✓ Additional guide chain

Application

- Pipe processing up to diameter of 1500 mm
- Can be used at temperatures permanently below 0°C
- Sawing steel pipes up to a wall thickness of 45 mm
- Sawing cast pipes up to a wall thickness of 22 mm
- Milling steel pipes up to a wall thickness of 30 mm
- Milling steel pipes up to a wall thickness of 15 mm
- Upright / vertical cuts
