

Eco magnetic core drill for up to 32 mm

Compact and precise single-speed Endurance magnetic core drill with basic functionality for core drilling in the workshop and on the construction site.

Product number: 7 270 94 61 24 0

Details

- For tough use thanks to the outstanding quality of workmanship and the internal motor cable guide.
- Extremely durable gearbox design offering an operating time of up to 400 hours for an uncompromising service life.
- Lightweight with FEIN high-power motor and high torque for all core drilling tasks

- + Excellent price / performance ratio.
- + Internal cooling.
- + High magnetic holding force.
- Feed handwheel can be moved from one side to the other.
- Good accessibility in cramped operating situations.
- + Personal safety switch.

+ 1 bottle holder

+ 1 centring pin 100 mm

+ 1 socket head wrench 5 mm

Price includes

- + 1 hand pump
- + 1 lashing strap
- + 1 contact guard
- + 1 case

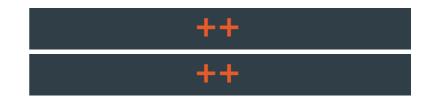

Product feature

 Feed handwheel can be moved from one side to the other

Application

Core drilling in metal with a \emptyset up to 35 mm

Working overhead

🕂 suitable
