

FEIN VersaMAG Vise Set

Magnetic vise with a jaw width of 4 [100] in[mm].

Compact and powerful permanent magnet with vise for the tool-free clamping of various components on magnetic surfaces.

Product number: 9 07 01 004 02 0

Details

- + A powerful, portable vise: FEIN VersaMAG is compact and its narrow permanent magnet adapts to any workstation.
- + Work safely with a wide range of options for use.
- + Modular system: The unique modular system ensures a secure hold in a variety of work situations and can always be extended with the required accessories.
- + The vise has a clamping range of 4-1/4 [108] in[mm] and a jaw width of 4 [100] in[mm].
- + Interchangeable clamping jaws in various heights for clamping larger materials such as sheet metal and pipes.
- + With an innovative two-rotor system, up to 1,754 lbf holding force for secure clamping to all magnetic surfaces – even in the thin sheet range [from 5/32[4] in[mm] thickness].
- + Clamping in tight spaces or level vertical surfaces? With its compact design and extra-narrow permanent magnets, challenging job sites are made a lot easier.
- + Precise alignment of the permanent magnets with the aid of 30% pre-magnetization.
- + Secure clamping of components for further processing with different power tools, e.g. angle grinders, screw guns, saws, MULTIMASTER, etc.

Price includes

- + 1 permanent magnet
- + 1 VersaMAG magnetic vise
- + 1 safety strap
- + 1 mounting plate
- + 1 Allen key 3 mm
