

ROTO-STAR I

Rotary Welding Positioner

Rotary welding positioner with chuck for work pieces up to 200 [90] lbs[kg] and 3-1/2 [89] in[mm] diameter with standard foot pedal and control box.

Product number: 3 13 43 790 03 0

Details

- + Provides stable work platform for increased productivity and seamless welds.
- + Rotates a full 360 degree at a steady speed to weld safely and quickly.
- + Pitch up to a 90 degree angle at 15 degrees increments offering enhanced mobility and functionality.
- + Increases safety by eliminating operator fatigue.
- + Increases production by reducing handling and by maneuvering of parts.
- + Light weight and heavy duty construction.
- + Provides stable work area to perfect high quality welds.
- + Optional rotary 12 [305] in[mm] surface plate.
- + Optional variable speed foot pedal and with control box.

Price includes

- + 1 chuck
- + 1 standard foot pedal
- + 1 control box

Technical data

TECHNICAL DATA

Current/Voltage

1 x 120 V

Chuck

6 [150] in[mm]

Rotation at 0°

16 [406] in[mm]

Vertical carrying capacity

200 [90.5] lbs[kg]

Horizontal carrying capacity

100 [45.5] lbs[kg]

Internal chuck dia.

1-1/2 [38] in[mm]

Spindle speed

0-10 rpm

Tilt adjustment

0-90°

Grounding output

300 Amp

Weight

60 [27] lbs[kg]
