PRODUCT NEWS FROM FEBRUARY 2024: F-IRON CUT 57 AS CORDLESS CIRCULAR SAW.

Compact, light and surprisingly strong. The cordless circular saw can cut through steel with a thickness of up to 57 mm – without rework. And it can be used on site for longer, sawing through up to 30 metres per battery charge. The flame-retardant swarf collecting vessel also ensures greater user safety. Flexibly stowed in the L-BOXX, robustly built and highly compatible thanks to the guide rail adapter: the ideal tool for use on the construction site.

NEW ACCESSORIES: FEIN VersaMAG UNIVERSAL PLATE.

Less clutter, more safety and intuitive working – the FEIN VersaMAG system in a nutshell. Other useful utensils, such as a tablet, measuring device etc. can now also be simply secured to the permanent magnet with the new universal plate. Everything is therefore clearly in place.

To discover more about the F-IRON Cut 57 AS, see page

To discover more about the new FEIN VersaMAG accessories, go to page 20.

FEIN'S RANGE OF

Allow us to present: FEIN's range of saws – made for metal. Every form of metalworking is now finally possible and to the level of quality you have come to expect from FEIN: faster, safer and more efficient. With the chop saw, three new cordless saws and numerous new accessories, metal professionals will find everything they need. Ergonomic, robust and ready for mobile use.

All cordless saws are also compatible with all AMPShare and BOSCH Professional 18V batteries produced since 2008.

CORDLESS

FROM FEBRUARY 2024

F-IRON CUT 57 AS. **CIRCULAR SAW.**

- + Light and compact
- + Long, precise cuts in metal
- + High cutting depth

Perfect for:

+ Mobile working + Cutting long workpieces

chequered sheets

- + Rapid, straight separating cuts in gratings, perforated sheets,
- + Machining workpieces which have already been fitted

ASAS 18-21 K AS RECIP. SAW.

- + High cutting depth
- + Comfortable working with flexible saw blades
- + Problem solver for cutting work: great accessibility in tight spots

Perfect for:

- Mobile working
- Cutting off flush without an offset/cut edge, e.g. straight along the wall

ABAS 18-63 AS BAND SAW.

- + High cutting quality
- + Precise results, even when working with small workpieces
- + Mitre cuts at all angles

Perfect for:

Mobile working

- + Universal use on the construction site or in the workshop
- + Clean mitre cuts, e.g. on pipes or round profiles

MKAS 355

MAINS-POWERED METAL CHOP SAW.

- + Easy to guide and operate
- + Precise cuts in metals
- + High cutting depth

Perfect for:

- + Stationary cutting of steel and metal profiles
- + Ideal for angled and mitre cuts

DOES THIS SOUND FAMILIAR?

Your cordless saw is
TOO HEAVY AND NOT
POWERFUL ENOUGH

compared with a mains-powered tool?

When you machine metal, YOU GET HOT SWARF WITH SHARP EDGES FLYING AROUND

and the saw blade twists?

You are not able to cleanly cut and detach long components

WITHOUT HAVING TO REWORK?

The tool cannot

BE FLEXIBLY

adjusted to different
materials?

FROM FEBRUARY

Great power. Highly compact.

THE NEW F-IRON CUT 57 AS.

50% MORE MATERIAL IS REMOVED.

50% more material is removed than with conventional metal circular saws. Twice as productive as the brushless motor, ProCORE battery and optimally coordinated saw blade interact perfectly. And the tool weighs just 3 kg.

COMPATIBLE EQUIPMENT.

Straight, long cuts as the tool is compatible with common guide rails (Makita, Bosch, Festool, Mafell) thanks to its removable adapter.

METRES SAWN PER BATTERY CHARGE*

F-IRON Cut 57 AS | 30 m = approx. 150 cuts

Competitor 1 | 15 m = approx. 80 cuts

Competitor 2 | 17 m = approx. 80 cuts

* in 2 mm steet (50 x 50 x 2 mm square pipe)

30 METRES WITH JUST ONE BATTERY CHARGE. AN AVERAGE OF 150 CUTS.

Can be used on site for longer: in 2 mm thick steel with the 8Ah ProCORE battery. Using the AMPShare 18V battery system, delivers constant power.

COMPLETE FLEXIBILITY.

Thanks to individual speed adjustment, cuts can be made in various materials and profiles without the need for rework. The depth adjustment makes distortion-free cuts possible up to 57 mm.

LASTING POWER.

The high power level has no impact on the longevity or performance of the tool because of the high-quality materials used, such as aluminium and stainless steel.

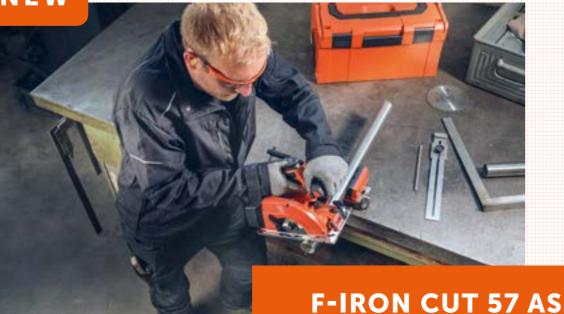

Circular saw suited to

machining metal. Suitable

accessories on page 9.

PROTECTION FROM HOT SWARF.

The heat-resistant swarf collecting vessel collects up to 80% of the hot swarf. What's more, the robust die-cast aluminium design protects the tool and user from overheating.

TECHNICAL DATA	F-IRON CUT 57 AS	
Battery voltage / interface	18V AMPShare	
No-load speed	1300-2800 rpm

£319.00

RRP £*

PRODUCTIVITY.

Productivity is doubled thanks to the greater amount of material removed and the fact that the tool's battery life is longer than that of the competition.

ADDED VALUE FOR YOU

LESS SWARF.

Heat-resistant swarf collecting vessel improves safety at the workplace.

SAVES MONEY.

Since the guide rail adapter is compatible with other manufacturers (Makita, Bosch, Festool, Mafell), you are spared the costs of a new guide system.

SAVES TIME.

Large swarf collecting vessel for long and constant sawing with long intervals between emptying.

MOBILE AND COMPACT.

Ideal for use on the construction site: compact and light yet powerful.

MISSION SAFETY.

Safety features include a dead man's switch, efficient brake (0.2 sec.), restart protection, temperature-based shutdown and pendulum protection cover.

FROM FEBRUARY

New saw blades.

PERFECT FOR THE CIRCULAR SAW: LESS WEAR AND GREATER SAWING POWER.

No matter how good your tool: you will only get the best results with the right accessories. FEIN supplies new, high-quality saw blades that are the perfect match for the new circular saw. These give the tool and saw blade alike an impressively long service life. To achieve the perfect cutting result, select from the following variants to suit the material you are sawing:

- + STEEL
- + STAINLESS STEEL
- + ALUMINIUM AND OTHER NON-FERROUS METALS

Diameter: 150 mm Holder: 20 mm

Suggested Battery Option: 8.0Ah ProCORE starter set Part No. - 926 042 29 24 0

* Recommended retail price plus VAT. .

ASAS 18-21 K AS reciprocating saw.

GREAT POWER. WHEN YOU NEED TO GET A JOB DONE QUICKLY.

Can handle anything: the extremely compact cordless recip. saw rapidly and effortlessly cuts through metal, plastic, wood, composite wood materials and insulation materials – straight, around corners and in hard-to-reach places. Equipped with an LED light, variable speed and reduced vibration, this makes the job of sawing pleasant and uncomplicated.

EXCELLENT PERFORMANCE.

Rapid work progress when sawing thanks to the powerful motor.

ERGONOMIC OPERATION.

Optimised size and reduced vibrations for low-fatigue working. The accelerator switch allows the speed to be adjusted with just one finger movement during use.

HIGH VERSATILITY.

The right solution for virtually all materials and applications: the SDS system for rapid, tool-free saw blade changes.

ASAS 18-21 K AS **TECHNICAL DATA** 18V AMPShare Battery voltage / interface Stroke 0-3050 rpm 21 mm Stroke length Wood 200 mm 100 mm Metal profiles and metal pipes Weight without battery 2 kg 367 mm Length Width 78 mm 177 mm Height 7 13 30 161 00 0 Order number RRP £* £149.00

owered by BOSCH

New saw blades.

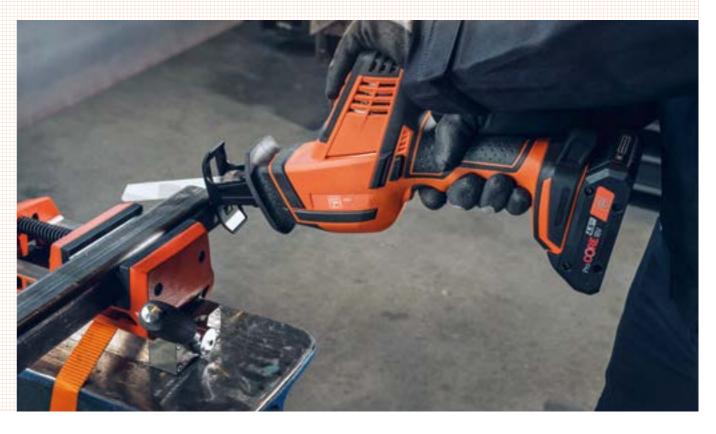

PERFECT FOR THE RECIPROCATING SAW: HOLDS UP PERFECTLY. GETS THROUGH WITH EASE.

You can put your trust in the recip. saw – especially if you have the right accessories from FEIN. The new, high-quality saw blades are the perfect match for the new recip. saw. Every FEIN saw blade is suited to all sabre saws with an S shank. The robust accessories also win over customers with their very long blade lives and effortless, rapid and precise cuts through:

- + ALL KINDS OF METAL
- + INCLUDING STAINLESS STEELS AND CASTINGS
- + WOOD CONTAINING METAL RESIDUES
- + SPECIAL MATERIALS (such as plasterboards)

Working length: 95–205 mm Holder: S-shank

* Recommended retail price plus VAT. .

ABAS 18-63 AS band saw

COMFORTABLE SAWING. **EVEN IN TIGHT SPACES.**

The compact, ergonomic cordless band saw allows you to still work comfortably when there is little freedom of movement. Saw blades can be changed without the need for tools. This coupled with the vibrationfree saw blade motion and an LED-illuminated working area make sawing tasks a walk in the park.

Dividing and mitre cuts can be completed in one pass. Common materials (e.g. metal, plastic pipes and aluminium profiles) can also be easily cut to length with a cutting capacity of 63.5 x 63.5 mm.

Suggested Battery Option: 8.0Ah ProCORE starter set Part No. - 926 042 29 24 0

The right tool for every application.

FEIN SAWS AT A GLANCE.

ASAS 18-21 K AS sabre saw (compact)

Metal saws have many advantages over cutting work using other tools, such as angle grinders: no temperature-related discolouration or deformation of the workpiece, few sparks fly (if any) when cutting and maximum precision. When sawing, you can also plunge into the material. Find out which metal saw is the right one for you.

VERSA MACCUSYSTEM

The FEIN VersaMAG system.

A POWERFUL MOBILE CLAMPING TOOL.

The new FEIN VersaMAG system brings a new dimension of flexibility into the world of clamping. The powerful permanent magnet is the foundation of the FEIN VersaMAG system.

Thanks to the permanent magnet with vice, vices are no longer shackled to the workbench, but can be used precisely in those places where rapid clamping used to be major challenge: on construction sites and in workshops, on vertical levels – and most importantly if you "just need to quickly do something".

Simply mobile and flexible. And it offers the perfect solution so you no longer have to choose between a secure hold and rapid success.

FLEXIBLE.

Can be used flexibly and at speed in a wide variety of areas thanks to the magnet.

SITS, FITS, NO WOBBLING.

30% magnetic bias for precise alignment of the magnetic vice.

New components for precise working.

EXTENSION THE FEIN VersaMAG SYSTEM.

A powerful mobile clamping tool. And the FEIN VersaMAG system is growing again. The vice and welding plate already provide two practical and universal components. And there is more to come: with FEIN products, there are almost no limits to the magnetic clamping force.

FROM JANUARY

Magnetic. Flexible. Indispensable.

THE NEW VersaMAG UNIVERSAL PLATE.

Finally, there is a place for measuring devices, tablets and smartphones at work: the universal plate can be used to secure all imaginable devices and tools on any magnetic surface – easily, securely and quickly in combination with the FEIN VersaMAG. Using one simple and common screw system with standard interfaces, such as M6, M8, 1/4" and 3/8", accessories can be fitted on the new adapter plate in a matter of seconds.

Now available as a new extension to the FEIN VersaMAG system.
