

# FEIN

## HSS Dura 50 Корончатое сверло с хвостовиком QuickIN

TiN покрытие для увеличения срока службы и снижения трения.

Метрический размер, глубина реза 50 мм.

Номер продукта: 6 31 33 150 06 8

### Технические характеристики

#### ОБЩИЕ ТЕХНИЧЕСКИЕ ХАРАКТЕРИСТИКИ

Глубина резания

50 мм

Ø сверл

15 мм

### Подходит для следующих машин

Universal

- |                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                |
